Summary

Software Engineering industry has one of the best advantages in improving problem solving and developing skills. My experience has helped me understand in depth about how to become a successful developer. Proficient in and understand HTML, CSS, Javascript, Node and MySQL along with my Project; Food Planner, Weather Dashboard, Code Quiz, and Password Generator as mentioned in my portfolio. This position will be the best fit due to my ever-growing knowledge with an excellent teamwork skills and attention to detail.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, React, jQuery, Bootstrap, AJAX

Backend: Node, Express, MySQL, MongoDB, Jest

Projects

1. My Food Planner

Front-End / Lead Developer

GitHub: <https://github.com/TyeStanley/my-food-planner>

Deployed: <https://tyestanley.github.io/my-food-planner>

- My Food Planner allows you to pre plan a week worth of meals.
- It frees up the much needed time from grocery shopping since it automatically grants the required recipes needed for a week worth of meals. What I've contributed towards this project were assigning each of my team github issues along with myself making sure we reached certain check points and helping out team mates when needed. On top of mobile responsiveness and bug fixes to the code.
- Tools/Languages: HTML, CSS, JavaScript, jQuery, Bulma

2. Weather Dashboard

Lead Developer

GitHub: <https://github.com/TyeStanley/weather-dashboard>

Deployed: <https://tyestanley.github.io/weather-dashboard>

- Weather Dashboard allows you to dynamically search any city for the forecast.
- Weather Dashboard accesses a weather api effectively using AJAX to quickly access and display weather information. Being straight forward and easy to use for every one who wants to freely check the daily and future forecast.
- Tools/Languages: HTML, CSS, JavaScript, BootStrap, Weather API

Experience

Goldentail Logistics LLC

—

March 2021 - April 2022

Business Owner located in Houston, TX

As a company, we develop, manage, and implement ever facet of the business to sustain longstanding profits and growth for the company. Our leadership consists of a long line of family businesses and connection in the transportation industry for 30+ years.

Responsibilities:

- Managed freight orders, assigning carriers, and negotiating prices to reach a minimum of 10% profit as a brokerage company.
- Communicating between Carriers and Shippers so that both parties are satisfied.
- Data input and proper documentation for every freight order.
- Effectively solved transportation issues within minutes.

Humane Society-Southeast Texas

—

2012 - 2014

Volunteer

Went in on the weekends to assist with animal care. Fed the shelter dogs in a safe and efficient manner and cleaned out their cages.

Responsibilities:

- Monitoring the well-being of the animals from 8:00 AM to 1:00 PM. Including washing, feeding, and bringing them for walks outside.
- Successfully cultivated close relationships with aggressive dogs.
- Diligently taught basic sit and stay commands to more than 30 dogs.
- Helped more than 20 animals find their new loving home.
